EUROPEAN ECONOMIC AREA

- Transparency of gas and electricity prices..... 37

PARTICIPANTS

Belgium:

Ms Sabine LARUELLE

Mr Kris PEETERS

Mr Olivier BELLE

Minister for the Middle Classes, SMEs, the Self-Employed and Agriculture
Minister-President of the Flemish Government and Flemish Minister for the Economy, Foreign Policy, Agriculture and Rural Policy
Deputy Permanent Representative

Bulgaria:

Mr Miroslav NAYDENOV

Ms Petia VASSILEVA

Minister for Agriculture and Food
Deputy Permanent Representative

Czech Republic:

Ms Jaroslava BENEŠ ŠPALKOVÁ

Mr Jakub DÜRR

Director General for the External Relations, Ministry of Agriculture
Deputy Permanent Representative

Denmark:

Ms Mette GJERSKOV

Minister for Food, Agriculture and Fisheries

Germany:

Ms Ilse AIGNER

Mr Robert KLOOS

Federal Minister for Food, Agriculture and Consumer Protection
State Secretary, Federal Ministry of Food, Agriculture and Consumer Protection

Estonia:

Mr Helir-Valdor SEEDER

Mr Clyde KULL

Minister for Agriculture
Deputy Permanent Representative

Ireland:

Mr Simon COVENEY

Minister for Agriculture, Food and the Marine

Greece:

Mr Athanasios TSAFTARIS

Mr Dimitrios MELAS

Minister for Rural Development and Food
Secretary General for Rural Development and Food

Spain:

Mr Miguel ARIAS CAÑETE

Mr José Pascual MARCO MARTINEZ

Mr José Javier ESPARZA

Ms Rosa María QUINTANA

Minister for Agriculture, Food and the Environment
Deputy Permanent Representative
Minister for Rural Development, Environment and Local Administration of the Chartered Community of Navarre
Minister for Rural Environment and for the Sea of the Autonomous Community of Galicia

France:

Mr Frédéric CUVILLIER

Mr Alexis DUTERTRE

Minister for Ecology, Sustainable Development and Energy
Deputy Permanent Representative

Italy:

Mr Mario CATANIA

Mr Marco PERONACI

Minister for Agricultural, Food and Forestry Policy
Deputy Permanent Representative

Cyprus:

Mr Sofoclis ALETRARIS

Ms Egli PANTELAKIS

Minister for Agriculture, Natural Resources and Environment
Permanent Secretary, Ministry of Agriculture, Environment and Natural Resources

Latvia:

Ms Laimdota STRAUJUMA

Mr Juris ŠTĀLMEISTARS

Minister for Agriculture
Deputy Permanent Representative

Lithuania:

Mr Arūnas VINČIŪNAS

Deputy Permanent Representative

Luxembourg:

Mr Romain SCHNEIDER

Minister for Agriculture, Viticulture and Rural
Development, Minister for Sport, Minister with
responsibility for Economic Solidarity
Deputy Permanent Representative

Ms Michèle EISENBARTH

Hungary:

Mr Endre KARDEVÁN

Mr Olivér VÁRHELYI

State Secretary
Deputy Permanent Representative**Malta:**

Mr George PULLICINO

Mr Patrick R. MIFSUD

Minister for Resources and Rural Affairs
Deputy Permanent Representative**Netherlands:**

Mr Derk OLDENBURG

Deputy Permanent Representative

Austria:

Mr Harald GÜNTHER

Deputy Permanent Representative

Poland:

Mr Stanislaw KALEMBA

Mr Kazimierz PLOCKE

Minister of Agriculture and Rural Development
State Secretary, Ministry of Agriculture and Rural
Development
Deputy Permanent Representative

Ms Karolina OSTRZYNIIEWSKA

Portugal:

Ms Assunção CRISTAS

Mr José DIOGO ALBUQUERQUE

Mr Manuel PINTO DE ABREU

Minister for Agriculture, Maritime Affairs, the
Environment and Regional Planning
State Secretary for Agriculture
State Secretary for Maritime Affairs**Romania:**

Mr Achim IRIMESCU

State Secretary, Ministry of Agriculture and Rural
Development**Slovenia:**

Mr Uroš VAJGL

Deputy Permanent Representative

Slovakia:

Ms Magdaléna LACKO-BARTOŠOVÁ

Mr Alexander MICOVČIN

State Secretary, Ministry of Agriculture and Rural
Development
Deputy Permanent Representative**Finland:**

Mr Risto ARTJOKI

State Secretary, Ministry of Agriculture

Sweden:

Mr Eskil ERLANDSSON

Minister for Rural Affairs

United Kingdom:

Mr Owen PATERSON

Mr Richard BENYON

Mr Richard LOCHHEAD

Mr Alun DAVIES

Ms Michelle O'NEILL

Secretary of State for Environment, Food and Rural
Affairs
Parliamentary Under Secretary of State for Environment,
Food and Rural Affairs
Cabinet Secretary for Rural Affairs and the Environment
(Scottish Government)
Deputy Minister for Agriculture, Food, Fisheries and
European Programmes (Welsh Assembly Government)
Minister for Agriculture and Rural Development (Northern
Ireland)

Commission:

Mr Dacian CIOLOȘ
Ms Maria DAMANAKI

Member
Member

The Government of the Acceding State was represented as follows:

Croatia:

Mr Tihomir JAKOVINA
Ms Irena ANDRASSY

Minister for Agriculture
Deputy Permanent Representative

ITEMS DEBATED**FISHERIES****Total allowable catches (TACs) and quotas for 2013**

The Council reached a political agreement on fishing opportunities for 2013 for EU vessels in Union and certain non-Union waters on the basis of a Presidency compromise, drawn up in agreement with the Commission. This agreement concerns fish stocks which are not subject to international negotiations or agreements and stocks subject to international negotiations or agreements ([15254/12](#); [16291/12](#)).

The Council will adopt these regulations, following finalisation by the legal/linguistic experts, at one of its forthcoming meetings.

The following table sets out the indicative values of the principal TACs for 2013 compared with those for 2012 and the Commission proposal.

Fishing opportunities 2013 for EU vessels in Union waters

(1) Stocks in Norwegian waters: no fishing opportunities pending the consultations on those arrangements for 2013.

(2) Stocks shared with Norway: provisional fishing opportunities subjects to the bilateral fisheries agreements with Norway, pending the consultations on those arrangements for 2013.

(3) TACs adopted by the Commission for the conservation of Antarctic marine living resources (CCAMLR) are not allocated to the members of CCAMLR and hence the Union's share is undetermined.

(4) These TACs are not allocated to the members of South East Atlantic Fisheries Organisation (SEAFO) and hence the Union's share is undetermined.

For the fishing opportunities, the following principles have been applied:

- When the scientific advice allowed to do so the TACs have been set **for reaching the maximum sustainable yield (MSY)** by 2015, where possible and at the latest by 2020 in line with the agreed general approach on the CFP reform.
- For **data-limited stocks**, the agreements favoured a case-by-case approach giving due consideration to the best available scientific information and indicators, in particular quantitative trends.
- For many stocks, **analytical TACs** were preferred to **precautionary TACs** in order to facilitate flexibility between stocks.
- For **fish stocks shared with Norway**, a margin has been kept in order to facilitate future bilateral negotiations.

In addition to the fishing opportunities 2013 for the Black Sea on which the ministers reached a political agreement in this Council session (see below), the fishing opportunities 2013 for the Baltic Sea were already adopted in November 2013 and the fishing opportunities for deep sea stock for 2013-2014 are about to be adopted.

According to Article 43(3) of the Treaty, the Council adopts measures on a proposal from the Commission on the fixing and allocation of fishing opportunities.

As the existing provisions in the area of the proposal are applicable until 31 December 2012, with the exception of certain effort limitations which are applicable until 31 January 2013, the regulation will apply from 1 January 2013 on.

Fishing opportunities for 2013 in the Black Sea

Ministers reached a political agreement on a regulation fixing for 2013 the fishing opportunities for certain fish stocks applicable in the Black Sea ([16889/12](#)) on the basis of a Presidency compromise, drawn up in agreement with the Commission.

The Council will adopt this regulation, after finalisation by the legal/linguistic experts, through a written procedure.

The main element of the Presidency compromise endorsed by the Commission is a roll-over in the EU total allowable catches (TACs) in the Black Sea for turbot and sprat.

The following table sets out the indicative values of the TACs in the Black Sea for 2013 compared with those for 2012 and the Commission proposal.

<i>Species Latin name</i>	Species English name	Espèces nom français	ICES fishing zone	COUNCIL TACs 2013	COUNCIL TACs 2012	COUNCIL comparison 2013/2012	COMMISSION proposal for 2013	comparison Council TAC 2012 / Commission proposal 2013
<i>Psetta maxima</i>	Turbot	Turbot	Black Sea (TUR/F3742C)	86,4	86,4	0%	74	-15%
<i>Sprattus sprattus</i>	Sprat	Sprat	Black Sea (SPR/F3742C)	11.475	11.475	0%	11.475	0%

The Council, the Commission and the Member States concerned agreed that it was appropriate to reinforce the control and monitoring measures such as inspection schemes and benchmarks to address misreporting and illegal fishing for turbot in the Black Sea. Such measures have been developed jointly by Member States concerned and the Commission in 2012.

In addition, the Council and the Commission agreed that existing regional cooperation on fishing in the Black Sea should be further enhanced to promote sustainable stock management in this area and that they would each take actions in line with their competence.

According to Article 43(3) of the Treaty, the Council adopts measures on a proposal from the Commission on the fixing and allocation of fishing opportunities in the Black Sea.

As the existing provisions are applicable until 31 December 2012 the regulation will apply from 1 January 2013.

Long-term plan for cod stocks

The Council reached a political agreement and adopted measures on the basis of a Presidency's proposal for an amendment to regulation 1342/2008 establishing a long-term plan for cod stocks and the fisheries exploiting those stocks ([13745/12](#)).

The Presidency proposed to split the amendments to the long-term plan for cod stocks into a legal act based on article 43(2) (ordinary legislative procedure) and another on article 43(3) (adoption by the Council) covering measures on the fixing and allocation of fishing opportunities. The political agreement reached covers the legal act based on Article 43(3). This will allow the Council to

- introduce flexibility in setting the total allowable catches (TACs), to reflect the scientific advice on a case by case basis;
- freeze effort allocations under certain conditions.

The political agreement was reached by unanimity (with the Dutch delegation abstaining); the adoption was also obtained by unanimity (with the Dutch and the Spanish delegations abstaining).

Background

Regulation 1342/2008 establishing a long-term plan for cod stocks and the fisheries exploiting those stocks calls for the performance of the management measures to be evaluated in the third year of implementation of the plan. The Scientific, Technical and Economic Committee for Fisheries (STECF) evaluated the plan in 2011. Its report stated that the cod plan has not achieved its objectives and that they are unlikely to be achieved by 2015. Furthermore, the report revealed that there are flaws in the design of the regulation and problems with its implementation. In the light of this advice and of the opinions received from regional advisory committees (RACs) and the Member States, the Commission proposed an amendment to the regulation.

The proposal provides the following amendments to the long-term plan for cod:

- limit the scope of the plan in order to avoid increasing the effort by using different calculation methods in the member states;
- introduce flexibility in the rule about what to do in circumstances where the normal harvest rule cannot be applied, to reflect the scientific advice on a case by case basis;

- clarify and simplify the procedure for applying the procedure for excluding from the fishing-effort regime those fishing activities that catch insignificant quantities of cod;
- reduce cod discards by strengthening the obligation on Member States to take action where the data indicate a high level of over-quota catches being discarded in certain fisheries;
- strengthen the level of monitoring and control as well as request full documentation as a basic justification for the derogations where implemented;
- align the provisions of the text with the Treaty on the Functioning of the EU, in particular the new comitology procedures.

AGRICULTURE

Common agricultural policy reform - Presidency progress report

The Presidency presented to the ministers its progress report on the reform of the common agricultural policy (CAP) ([17592/12](#)).

Delegations broadly welcomed the progress report as a fair and accurate reflection of the state of debate in Council, and hailed it as a solid foundation for the next steps in the process under the Irish Presidency. They also encouraged the incoming Presidency to deepen discussions on the open issues. Many delegations commented on issues of importance to them, particularly in relation to internal convergence of direct payments and greening. Some delegations stressed the close link between the ambition of the CAP reform and outcome on the Multi-Annual Financial Framework (MFF) expected for the beginning of next year.

The Presidency report highlights the progress achieved during the second half of 2012 on the CAP reform proposals. It has been drawn up under the responsibility of the Presidency on the basis of the positions expressed within the Council and its preparatory bodies.

The report summarises the main changes to the Commission proposals on which the Presidency has noted broad support of delegations. The Presidency's suggested amendments aimed to resolve a number of issues raised by delegations, particularly with a view to ensuring that future CAP legislation is workable in practice and can be implemented in a cost-effective manner. The Council has made clear several times its determination that the reform should deliver real simplification.

The report also identifies for each of the proposals the key issues which remain outstanding as at December 2012, including issues contained in the negotiating box of the multiannual financial framework (MFF).

The report distinguishes between three categories of issues:

- issues on which there is broad support of delegations for the amendments suggested by the Presidency to the Commission proposals (including amendments related to the accession of Croatia as of 1st July 2013);
- issues which remain outstanding as at December 2012;
- issues which are included in the negotiating box of the MFF and which the European Council will decide upon.

ANY OTHER BUSINESS

Conference on the Movement of Exotic Animals

The Presidency briefed the Council about the conclusions of an international conference on the movement of exotic animals which took place on 4/5 October 2012 in Brussels ([17616/12](#)).

The purpose of this event - organised jointly by the Cyprus Presidency, the EU Commission and the Federation of Veterinarians in Europe (FVE) and the Swiss federal veterinary office - was to exchange information on the ways that exotic animals enter the EU market and end up in the different EU countries, and to point out the challenges for animal health and welfare and the possible impact on public health.

The Commission recalled that it will present in 2013 to the Council a proposal for a new EU animal health law, this new legal framework might also cover exotic species.

Wine common market organisation (CMO)

The Commission briefed ministers on its report on the implementation of the 2008 wine reform within the framework of the current Single common market organisation (CMO) regulation ([17630/12](#)). The Commission also reported on the conclusions of the High level group (HLG) on vine planting rights which was set up by the Commission earlier this year.

Many wine producing Member States supported the work of the HLG whose recommendations envisage setting up an alternative authorisation system when the current vine planting rights regime will expire. Delegations requested the Commission to come forward with further details.

As part of the 2008 wine sector reform, the existing system of vine planting rights regulating wine production is due to expire in 2015.

Common Declaration on Coupled Support

Ministers took note of a common declaration concerning coupled support prepared by Bulgaria, the Czech Republic, Hungary, Latvia, Poland, Romania and Slovakia and supported by Slovenia ([17719/12](#)).

Those Members States requested that in the context of CAP reform Member States applying the single area payment scheme (SAPS) should have the option to grant coupled support amounting to more than 10% of their national ceiling (threshold fixed by the Commission in its proposal). These delegations consider that coupled support constitutes an important instrument of the CAP because it ensures support for sectors with particular difficulties and makes a significant contribution to solving specific regional problems. The Commission pointed out the need to apply coupled support to targeted objectives only and advocated the flexibility foreseen in its proposal on internal convergence of direct payments to address their concerns.

Sugar production levies 2002-2006

The Council was briefed by the German delegation on the need for measures to implement the recent judgment by the European Court of Justice in case C-113/10 annulling Commission regulation 1193/2009 on the level of sugar production levies for the marketing year 2002/2003 to 2005/2006 and to repay the amounts with interest. This request was supported by a number of delegations.

Milk market situation and conditions for phasing-out the milk quota system

The Commission briefed the Council about the evolution of the milk market situation and the consequent conditions for smoothly phasing-out the milk quota system (or "soft landing") ([17611/12](#)).

Some delegations contested that the "soft landing" was on track in a majority of Member States as announced by the Commission. These countries regretted the level of "super-levy" for exceeding milk quotas. Other delegations expressed their concern with regard to the abolition of quotas in particular for less favoured areas.

In its report, the Commission considers that both the evolution of milk production versus milk quotas, and the downward trend in quotas prices show that the phasing-out the milk quota system is on track. In many Member states, quotas are no longer relevant to limit production and the quota price has already reached zero or is approaching it.

OTHER ITEMS APPROVED**COMMON SECURITY AND DEFENCE POLICY****2013 Budget for the European Defence Agency**

The Council adopted the 2013 budget and staff establishment plan for the European Defence Agency. The budget amounts to EUR 30.5 million.

AGRICULTURE**Council conclusions on a Court of auditors report - Suckler cow direct aids**

The Council adopted conclusions on the special report No 11/2012 from the European Court of Auditors entitled "Suckler cow and ewe and goat direct aids under partial implementation of single payment scheme (SPS) arrangements" ([17806/12](#)).

The Court has issued recommendations regarding the specific schemes for partial implementation of SPS arrangements for suckler cow and ewe and goat direct aids. The Council considers it could be taken into account in the proceedings on the proposal on direct payments currently being examined by the Council within the framework of the CAP reform.

Council conclusions on a Court of auditors report - EU hygiene legislation in slaughterhouses

The Council adopted conclusions on the special report No 14/2012 from the European Court of Auditors entitled "Implementation of EU hygiene legislation in slaughterhouses of countries that joined the EU since 2004" ([17807/12](#)).

The Court concluded that overall the design of systems for supervision of hygiene requirements by the Commission and the competent authorities in the newly acceding Member States was adequate. Weaknesses found do not individually or collectively call into question the overall design of the systems to ensure that hygiene requirements are applied. The Council considers that the Court's recommendations with regard to the selection and evaluation of projects could be taken into account in the proceedings on the proposal for rural development currently being examined by the Council within the framework of the CAP reform.

Council conclusions on a Court of auditors report - Single Area Payment Scheme

The Council adopted conclusions on the special report No 16/2012 from the European Court of Auditors entitled "The effectiveness of the Single Area Payment Scheme (SAPS) as a transitional system for supporting farmers in the new Member States" ([17810/12](#)).

At several occasions, Member states concerned have pointed out that the application of the SAPS system as a whole, together with Complementary Direct Payments was a success, and that the possibility of a continuation of SAPS in the future should not be excluded. The Council considers that the Court's recommendations and the views of the Member States could be taken into account in the proceedings on the proposal on direct payments within the framework of the CAP reform.

FISHERIES

Community producer prices for 2013 for certain fishery products

The Council fixed the guide prices and Community producer prices for certain fishery products for the 2013 fishing year ([16834/12](#)).

The objective of this regulation is to ensure the functioning of the price support and intervention mechanisms laid down in regulation 2000/104/EC¹ during 2013 fishing year to attain a single market in fisheries products. The regulation concerns the guide prices for a specified number of fishery products as well as the Community producer price for specified tuna products. The guide prices form the reference for the subsequent fixing of the different technical parameters needed for the operation of the intervention mechanisms. In addition, the Community producer price is of relevance for the compensatory allowance for tuna delivered to the processing industry, which might be triggered when prices on the world markets fall below a specified trigger level.

Pursuant to Council Regulation (EC) No 104/2000, the relevant prices shall follow both the development of market prices during the three preceding fishing years as well as trends in production and demand. In line with that, the proposal is for adjustments of between -1% and +1.5% for most whitefish species; for increases between +1.5% and +2.5% for a majority of pelagic species; and for increases between +0.5% and +3% for most crustaceans. In the field of frozen species, the proposal reflects increases between +1% and +3% for a majority of products. Finally, the proposal is for increasing the Union producer price for tuna products by +2%.

Under article 43(3) of the Treaty, the Council adopts measures on a proposal from the Commission on the guide prices and Community producer prices for certain fishery products.

TRANSPORT

Accessibility requirements for European railways

The Council decided not to oppose adoption by the Commission of a directive which will complement the essential requirements listed in annex III of directive 2008/57 on the interoperability of the EU rail system with requirements concerning accessibility for persons with disabilities ([16273/12](#)).

The draft directive is subject to the regulatory procedure with scrutiny; now that the Council has given its consent, the Commission may adopt it, unless the European Parliament objects

Technical specifications for interoperability of European railways

The Council decided not to oppose adoption by the Commission of two regulations updating the technical specifications for interoperability of the trans-European rail system relating to the freight wagon rolling stock ([16152/12](#)) and to the telematic applications for the freight subsystem ([16282/12](#)).

The draft regulations are subject to the regulatory procedure with scrutiny; now that the Council has given its consent, the Commission may adopt them, unless the European Parliament objects.

ENVIRONMENT

Emission allocations for the period from 2013 to 2020

The Council decided not to oppose the adoption of the following Commission legislative act,:

- decision on determining Member States' annual emission allocations for the period from 2013 to 2020 pursuant to Decision No 406/2009/EC ¹ ([15867/12](#)) .

The Commission's acts are subject to what is known as the regulatory procedure with scrutiny². This means that now that the Council has given its consent, the Commission may adopt them, unless the European Parliament objects.

¹ Council Decision on the effort of Member States to reduce their greenhouse gas emissions to meet the Community's greenhouse gas reduction commitments up to 2020 (OJ L 140, 5.06.2009).

² Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission (OJ L 184, 17.7.1999, p. 23), as amended by Decision 2006/512/EC (OJ L 200, 22.7.2006).

NUCLEAR ENERGY**Secure Supply of Radioisotopes for Medical Use**

The Council adopted conclusions " Towards the Secure Supply of Radioisotopes for Medical Use in the European Union" ([17453/12](#)).

EUROPEAN ECONOMIC AREA**Transparency of gas and electricity prices**

The Council adopted a decision on the position to be taken by the EU within the EEA Joint Committee concerning an amendment to Annex IV (Energy) and to Annex XXI (Statistics) to the EEA agreement ([16058/12](#)).

The decision is aimed at incorporating Directive 2008/92/EC of the European Parliament and of the Council of 22 October 2008 concerning a Community procedure to improve the transparency of gas and electricity prices charged to industrial end-users into the agreement.
