ANNEX 1— IRREGULARITIES REPORTED AS FRAUDULENT IN 2019

The number of irregularities reported as fraudulent measures the results of Member States' work to counter fraud and other illegal activities affecting the EU's financial interests. Therefore, the figures should not be interpreted as indicating the level of fraud in the Member States territories. The table below does not include third countries (pre-accession) and direct expenditure.

The high figures related to Slovakia are, to a great extent, the result of a single case of high financial value, which may be due to a precautionary reporting policy applied in Slovakia.
