TITLE I

GENERAL PROVISIONS

Article 1

Definitions

For the purposes of this Protocol:

- (a) "manufacture" means any kind of working or processing including assembly or specific operations;
- (b) "material" means any ingredient, raw material, component or part, etc., used in the manufacture of the product;
- (c) "product" means the product being manufactured, even if it is intended for later use in another manufacturing operation;
- (d) "goods" means both materials and products;
- (e) "customs value" means the value as determined in accordance with the 1994 Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade (WTO Agreement on customs valuation);
- (f) "ex-works price" means the price paid for the product ex works to the manufacturer in the Community or in the EAC Partner States in whose undertaking the last working or processing is carried out, provided the price includes the value of all the materials used, minus any internal taxes paid which are, or may be, repaid when the product obtained is exported;
- (g) "value of materials" means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the Community or in the EAC Partner States;
- (h) "value of originating materials" means the value of such materials as defined in subparagraph (g) applied *mutatis mutandis*;
- (i) "value added" shall be taken to be the ex-works price minus the customs value of each of the materials incorporated which originate in the other countries or territories referred to in Articles 3 and 4 with which cumulation is applicable, or where the customs value is not known or cannot be ascertained, the first ascertainable price paid for the materials in the Community or in one of the EAC Partner States;
- (j) "chapters" and "headings" mean the chapters and the four-digit headings used in the nomenclature which makes up the Harmonized Commodity Description and Coding System, referred to in this Protocol as "the Harmonized System" or "HS";
- (k) "classified" refers to the classification of a product or material under a particular heading;

- (l) "consignment" means products which are either sent simultaneously from one exporter to one consignee or covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such a document, by a single invoice;
- (m) "territories" includes territorial waters;
- (n) "OCTs" means the Overseas Countries and Territories as defined in Annex IX;
- (o) "other ACP States" means all the ACP States in exception of the EAC Partner States.

TITLE II

DEFINITION OF THE CONCEPT OF 'ORIGINATING PRODUCTS'

Article 2

General requirements

1. For the purpose of the EAC–EU Economic Partnership Agreement, hereinafter referred to as "the Agreement" the following products shall be considered as originating in the Community:
 - (a) products wholly obtained in the Community within the meaning of Article 6 of this Protocol;
 - (b) products obtained in the Community incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in the Community within the meaning of Article 7.
2. For the purpose of the Agreement, the following products shall be considered as originating in an EAC Partner State:
 - (a) products wholly obtained in an EAC Partner State within the meaning of Article 6 of this Protocol;
 - (b) products obtained in an EAC Partner State incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in that EAC Partner State within the meaning of Article 7.

Article 3

Cumulation in the Community

1. Without prejudice to the provisions of Article 2(1), products shall be considered as originating in the Community if they are obtained there, incorporating materials originating in an EAC Partner State, in the other ACP States or in the OCTs, provided the working or processing carried out in the Community goes beyond that the operations referred to in Article 8. It shall not be necessary for such materials to have undergone sufficient working or processing.
2. Where the working or processing carried out in the Community does not go beyond the operations referred to in Article 8, the product obtained shall be considered as originating in the Community only where the value added there is greater than the value of the materials used originating in any one of the other countries or territories referred to in paragraph 1. If this is not so, the product obtained shall be considered as originating in the country or territory which accounts for the highest value of originating materials used in the manufacture in the Community.
3. Products originating in one of the countries or territories referred to in paragraphs 1 and 2, which do not undergo any working or processing in the Community, retain their origin if exported into one of these countries or territories.

4. For the purpose of implementing Article 2(1)(b), working or processing carried out in an EAC Partner State, in the other ACP States or in the OCTs shall be considered as having been carried out in the Community when the products obtained undergo subsequent working or processing in the Community. Where pursuant to this provision the originating products are obtained in two or more of the countries or territories concerned, they shall be considered as originating in the Community only if the working or processing goes beyond the operations referred to in Article 8.
5. Where the working or processing carried out in the Community does not go beyond the operations referred to in Article 8, the product obtained shall be considered as originating in the Community only where the value added there is greater than the value of the materials used in any one of the other countries or territories referred to in paragraph 4. If this is not so, the product obtained shall be considered as originating in the country or territory which accounts for the highest value of materials used in the manufacture.
6. The cumulation provided in this Article may only be applied provided that:
 - (a) the countries involved in the acquisition of the originating status and the country of destination have concluded an agreement on administrative cooperation which ensures a correct implementation of this Article
 - (b) materials and products have acquired originating status by the application by the application of the same rules of origin as provided in this Protocol ;
 - (c) the Community will provide the EAC Partner States, through the European Commission, with details of agreements on administrative cooperation with the other countries or territories referred to in this Article. The European Commission shall publish in the *Official Journal of the European Union* (C series) and the EAC Partner States shall publish according to their own procedures the date on which the cumulation provided for in this article may be applied with those countries or territories listed in this article which have fulfilled the necessary requirements.
7. The cumulation provided for in this Article may only be applied after 1 October 2015 for the products listed in Annex X and after 1 January 2010 for rice of tariff heading 1006 respectively.

Article 4

Cumulation in the EAC Partner States

1. Without prejudice to the provisions of Article 2(2), products shall be considered as originating in an EAC Partner State if they are obtained there, incorporating materials originating in the Community, in the other ACP States, in the OCTs or in the other EAC Partner States, provided the working or processing carried out in that EAC Partner State goes beyond that the operations referred to in Article 8. It shall not be necessary for such materials to have undergone sufficient working or processing.
2. Where the working or processing carried out in the EAC Partner State does not go beyond the operations referred to in Article 8, the product obtained shall be considered as originating in that EAC Partner State only where the value added there is greater than the value of the materials used originating in any one of the other countries or territories

referred to in paragraph 1. If this is not so, the product obtained shall be considered as originating in the country or territory which accounts for the highest value of originating materials used in the manufacture in that EAC Partner State.

3. Products originating in one of the countries or territories referred to in paragraphs 1 and 2 of this Article, which do not undergo any working or processing in the EAC Partner State, retain their origin if exported into one of these countries or territories.
4. For the purpose of implementing Article 2(2)(b), working or processing carried out in the Community, in the other EAC Partner States, in the other ACP States or in the OCTs shall be considered as having been carried out in an EAC Partner State when the products obtained undergo subsequent working or processing in this EAC Partner State. Where pursuant to this provision the originating products are obtained in two or more of the countries or territories concerned, they shall be considered as originating in this EAC Partner State only if the working or processing goes beyond the operations referred to in Article 8.
5. Where the working or processing carried out in the EAC Partner State does not go beyond the operations referred to in Article 8, the product obtained shall be considered as originating in that EAC Partner State only where the value added there is greater than the value of the materials used in any one of the other countries or territories referred to in paragraph 4. If this is not so, the product obtained shall be considered as originating in the country or territory which accounts for the highest value of materials used in the manufacture.
6. The cumulation provided in this Article may only be applied provided that:
 - (a) the countries involved in the acquisition of the originating status and the country of destination have concluded an agreement on administrative cooperation which ensures a correct implementation of this Article;
 - (b) materials and products have acquired originating status by the application of the same rules of origin as provided in this Protocol;
 - (c) the EAC Partner States will provide the Community, through the European Commission, with details of agreements on administrative cooperation with the other countries or territories referred to in this Article. The European Commission shall publish in the *Official Journal of the European Union* (C series) and the EAC Partner States shall publish according to their own procedures the date on which the cumulation provided for in this article may be applied with those countries or territories listed in this article which have fulfilled the necessary requirements.
7. The cumulation provided for in this Article shall not be applicable to the products listed in Annex X. Notwithstanding that, the cumulation provided for in this Article may only be applied after 1 October 2015 for the products listed in Annex X and after 1 January 2010 for rice of tariff heading 1006 respectively, when the materials used in the manufacture of such products are originating, or the working or processing is carried out in an EAC Partner State or in an other ACP State member of an Economic Partnership Agreement.
8. This Article shall not apply to products of Annex XII originating in South Africa. The cumulation provided for in this Article shall apply for the products originating in South Africa listed in Annex XIII after 31 December 2009.

Article 5

Cumulation with neighbouring developing countries

At the request of the EAC Partner States and following the provisions of Article 43(2)(a), materials originating in a neighbouring developing country, other than an ACP State, belonging to a coherent geographical entity, a listing of which is at Annex VIII, can be considered as materials originating in a EAC Partner State when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided that:

- (a) the working or processing carried out in the EAC Partner State exceeds the operations listed in Article 8.
- (b) the EAC Partner States, the Community and the neighbouring developing countries concerned have concluded an agreement on adequate administrative cooperation procedures which will ensure correct implementation of this paragraph.

The cumulation provided for in this Article shall not be applicable to the products to be listed upon a decision of the Special Committee on Customs Cooperation.

For the purpose of determining whether the products originate in the neighbouring developing country as defined in Annex VIII, the provisions of this Protocol shall apply.

Article 6

Wholly obtained products

1. The following shall be considered as wholly obtained in an EAC Partner State or in the Community:
 - (a) mineral products extracted from their soil or from their seabed;
 - (b) fruit and vegetable products harvested there;
 - (c) live animals born and raised there;
 - (d) products from live animals raised there;
 - (e)
 - (i) products obtained by hunting or fishing conducted there;
 - (ii) products of aquaculture, including mariculture, where the fish are born and raised there;
 - (f) products of sea fishing and other products taken from the sea outside the territorial waters of the Community or of an EAC Partner State by their vessels;
 - (g) products made aboard their factory ships exclusively from products referred to in (f);
 - (h) used articles collected there fit only for the recovery of raw materials, including used tyres fit only for retreading or for use as waste;

- (i) waste and scrap resulting from manufacturing operations conducted there;
 - (j) products extracted from marine soil or subsoil outside their territorial waters provided that they have sole rights to work that soil or subsoil;
 - (k) goods produced there exclusively from the products specified in (a) to (j).
2. The terms "their vessels" and "their factory ships" in paragraph 1(f) and (g) shall apply only to vessels and factory ships:
- (a) which are registered in an EC Member State or in an EAC Partner State;
 - (b) which sail under the flag of an EC Member State or of an EAC Partner State;
 - (c) which meet one of the following conditions:
 - i) they are at least 50 per cent owned by nationals of an EC Member State or of an EAC Partner State;
 - or
 - ii) they are owned by companies
 - which have their head office and their main place of business in an EC Member State or in an EAC Partner State; and
 - which are at least 50 per cent owned by an EC Member State or by an EAC Partner State, public entities or nationals of that State.
3. Notwithstanding the provisions of paragraph 2, the Community shall recognize, upon request of an EAC Partner State, that vessels chartered or leased by the EAC Partner State be treated as "their vessels" to undertake fisheries activities in its exclusive economic zone provided that the charter or lease agreement, for which the Community has been offered the right of first refusal, and has been accepted by the Special Committee on Customs Cooperation as providing adequate opportunities for developing the capacity of the EAC Partner State to fish on its own account and in particular as conferring on the EAC Partner State the responsibility for the nautical and commercial management of the vessel at its disposal for a significant period of time.
4. The conditions of paragraph 2 can be fulfilled in different States insofar they belong to EAC Partner States. In this case, products shall be deemed to have the origin of the State by whose nationals or by a company of which the vessel or factory ship is owned in accordance with the third indent of paragraph 2. In the event of a vessel or factory ship owned by nationals or companies of States belonging to different Economic Partnership Agreements, the products shall be deemed to have the origin of the State whose nationals or companies contribute to the highest share in accordance to the provisions of paragraph 2(c).

Article 7

Sufficiently worked or processed products

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the List in Annex II are fulfilled.
2. Notwithstanding paragraph 1, the products which are listed in Annex II(a) can be considered to be sufficiently worked or processed, for the purposes of Article 2, when the conditions set out in that Annex are fulfilled.
3. The conditions referred to in paragraphs 1 and 2 above indicate, for all products covered by this EPA, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. Accordingly, it follows that if a product, which has acquired originating status by fulfilling the conditions set out in either List is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.
4. Notwithstanding paragraphs 1 and 2, non-originating materials which, according to the conditions set out in Annex II and Annex II(a) should not be used in the manufacture of a given product may nevertheless be used, provided that:
 - (a) their total value does not exceed 15 per cent of the ex-works price of the product;
 - (b) any of the percentages given in the List for the maximum value of non-originating materials are not exceeded through the application of this paragraph.
5. The provisions of paragraph 4 shall not apply to products of Chapters 50 to 63 of the Harmonized System.
6. Paragraphs 1 to 5 shall apply subject to the provisions of Article 8.

Article 8

Insufficient working or processing

1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 7 are satisfied:
 - (a) preserving operations to ensure that the products remain in good condition during transport and storage;
 - (b) breaking-up and assembly of packages;
 - (c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;
 - (d) ironing or pressing of textiles;
 - (e) simple painting and polishing operations;
 - (f) husking, partial or total bleaching, polishing, and glazing of cereals and rice;

- (g) operations to colour sugar or form sugar lumps; partial or total milling of crystal sugar;
- (h) peeling, stoning and shelling, of fruits, nuts and vegetables;
- (i) sharpening, simple grinding or simple cutting;
- (j) sifting, screening, sorting, classifying, grading, matching; (including the making-up of sets of articles);
- (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
- (l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;
- (m) simple mixing of products, whether or not of different kinds; mixing of sugar with any other material;
- (n) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
- (o) a combination of two or more operations specified in (a) to (n);
- (p) slaughter of animals.

2. All operations carried out either in the Community or in the EAC Partner States on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Article 9

Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System. Accordingly, it follows that
 - (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification;
 - (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the provisions of this Protocol.
2. Where, under General Rule 5 of the Harmonized System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 10

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 11

Sets

Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all component products are originating. Nevertheless when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the ex-works price of the set.

Article 12

Neutral elements

In order to determine whether a product is originating, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;

- (c) machines and tools;
- (d) goods which do not enter and which are not intended to enter into the final composition of the product.

TITLE III

TERRITORIAL REQUIREMENTS

Article 13

Principle of territoriality

1. Except as provided for in Articles 3, 4 and 5 the conditions for acquiring originating status set out in Title II must be fulfilled without interruption in the EAC Partner States or in the Community.
2. Except as provided for in Articles 3, 4, and 5 where originating goods exported from an EAC Partner State or from the Community to another country return, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:
 - (a) the returning goods are the same goods as those exported; and
 - (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

Article 14

Direct transport

1. The preferential treatment provided for under the Agreement applies only to products, satisfying the requirements of this Protocol, which are transported directly between an EAC Partner State and the Community or through the territories of the other countries referred to in Articles 3, 4 and 5 with which cumulation is applicable. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition. Originating products may be transported by pipeline across territory other than that of an EAC Partner State or the Community.
2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:
 - (a) a single transport document covering the passage from the exporting country through the country of transit; or
 - (b) a certificate issued by the customs authorities of the country of transit:

- i) giving an exact description of the products;
 - ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used;
- and
- iii) certifying the conditions under which the products remained in the transit country; or
- (c) failing these, any substantiating documents.

Article 15

Exhibitions

1. Originating products, sent for exhibition in a country or territory other than those referred to in Articles 3, 4 and 5 with which cumulation is applicable and sold after the exhibition for importation in the Community or in an EAC Partner State shall benefit on importation from the provisions of the Agreement provided it is shown to the satisfaction of the customs authorities that:
 - (a) an exporter has consigned these products from an EAC Partner State or from the Community to the country in which the exhibition is held and has exhibited them there;
 - (b) the products have been sold or otherwise disposed of by that exporter to a person in an EAC Partner State or in the Community;
 - (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition;

and

 - (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.
2. A proof of origin must be issued or made out in accordance with the provisions of Title IV and submitted to the customs authorities of the importing country in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.
3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organized for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV PROOF OF ORIGIN

Article 16

General requirements

1. Products originating in an EAC Partner State shall, on importation into the Community and products originating in the Community shall, on importation into an EAC Partner State, benefit from the provisions of the Agreement upon submission of either:
 - (a) a movement certificate EUR.1, a specimen of which appears in Annex III; or
 - (b) in the cases specified in Article 21(1), a declaration, subsequently referred to as the 'invoice declaration', given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified; the text of the invoice declaration appears in Annex IV.
2. Notwithstanding paragraph 1, originating products within the meaning of this Protocol shall, in the cases specified in Article 27, benefit from the Agreement without it being necessary to submit any of the documents referred to above.
3. For the purpose of applying the provisions of this Title, the exporters shall endeavour to use a language common to both the EAC Partner States and the Community.

Article 17

Procedure for the issue of a movement certificate EUR.1

1. A movement certificate EUR.1 shall be issued by the customs authorities of the exporting country on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorized representative.
2. For this purpose, the exporter or his authorized representative shall fill out both the movement certificate EUR.1 and the application form, specimens of which appear in Annex III. These forms shall be completed in accordance with the provisions of this Protocol. If they are handwritten, they shall be completed in ink in printed characters. The description of the products must be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.
3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities of the exporting country where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfillment of the other requirements of this Protocol.
4. A movement certificate EUR.1 shall be issued by the customs authorities of a Member State or of an EAC Partner State if the products concerned can be considered as products

originating in the Community or in an EAC Partner State or in one of the other countries or territories referred to in Articles 3, 4 and 5 and fulfill the other requirements of this Protocol.

5. The issuing customs authorities shall take any steps necessary to verify the originating status of the products and the fulfillment of the other requirements of this Protocol. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. The issuing customs authorities shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.
6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.
7. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 18

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 17(7), a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:
 - (a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or
 - (b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.
2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.
3. The customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.
4. Movement certificates EUR.1 issued retrospectively must be endorsed with the following phrase in English:

"ISSUED RETROSPECTIVELY"
5. The endorsement referred to in paragraph 4 shall be inserted in the 'Remarks' box of the movement certificate EUR.1.

Article 19

Issue of a duplicate movement certificate EUR.1

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession
2. The duplicate issued in this way must be endorsed with the following word in English:

"DUPLICATE"
3. The endorsement referred to in paragraph 2 shall be inserted in the 'Remarks' box of the duplicate movement certificate EUR.1.
4. The duplicate, which must bear the date of issue of the original movement certificate EUR.1, shall take effect as from that date.

Article 20

Issue of movement certificates EUR.1 on the basis of a proof of origin issued or made out previously

When originating products are placed under the control of a customs office in an EAC Partner State or in the Community, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 for the purpose of sending all or some of these products elsewhere within the EAC Partner States or within the Community. The replacement movement certificate(s) EUR.1 shall be issued by the customs office under whose control the products are placed and endorsed by the customs authority under whose control the products are placed.

Article 21

Conditions for making out an invoice declaration

1. An invoice declaration as referred to in Article 16(1)(b) may be made out:
 - (a) by an approved exporter within the meaning of Article 22, or
 - (b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6 000.
2. An invoice declaration may be made out if the products concerned can be considered as products originating in an EAC Partner State or in the Community or in one of the other countries or territories referred to in Articles 3, 4 and 5 and fulfill the other requirements of this Protocol.
3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfillment of the other requirements of this Protocol.
4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV to this Protocol, using one of the linguistic versions set out

in that Annex and in accordance with the provisions of the domestic law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.

5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 22 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.
6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two years after the importation of the products to which it relates.

Article 22

Approved exporter

1. The customs authorities of the exporting country may authorize any exporter who makes frequent shipments of products under the trade cooperation provisions of the Agreement to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorization must offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfillment of the other requirements of this Protocol.
2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.
3. The customs authorities shall grant to the approved exporter a customs authorization number which shall appear on the invoice declaration.
4. The customs authorities shall monitor the use of the authorization by the approved exporter.
5. The customs authorities may withdraw the authorization at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, does not fulfill the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorization.

Article 23

Validity of proof of origin

1. A proof of origin shall be valid for ten months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.
2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 24

Transit procedure

When the products enter a State or territory referred to in Articles 3 and 4, other than the country of origin, a further period of validity of 4 months shall begin on the date on which the customs authorities in the country of transit enter the following in box 7 of the certificate EUR.1:

- the word “transit”,

- the name of the country of transit,
- the official stamp, a specimen of which has been made available to the European Commission, in
- conformity with Article 34,
- date of the endorsements.

Article 25

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.

Article 26

Importation by installments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonized System falling within Sections XVI and XVII or heading 7308 and 9406 of the Harmonized System are imported by installments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first installment.

Article 27

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on customs declaration CN22/CN23 or on a sheet of paper annexed to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.
3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

Article 28

Information procedure for cumulation purposes

1. When Articles 3(1), 4(1) and 5 are applied, the evidence of originating status within the meaning of this Protocol of the materials coming from an EAC Partner State, from the Community, from another ACP State or from an OCT shall be given by a movement certificate EUR 1 or by the supplier's declaration, a specimen of which appears in Annex V A to this Protocol, given by the exporter in the State or in the Community from which the materials came.
2. When Articles 3(4) and 4(4) are applied, the evidence of the working or processing carried out in an EAC Partner State, in the Community, in another ACP State or in an OCT shall be given by the supplier's declaration a specimen of which appears in Annex V B to this Protocol, given by the exporter in the State or in the Community from which the materials came.
3. A separate supplier's declaration shall be made up by the supplier for each consignment of goods on the commercial invoice related to that shipment or in an annex to that invoice, or on a delivery note or other commercial document related to that shipment which describes the materials concerned in sufficient detail to enable them to be identified.
4. The supplier's declaration may be made out on a pre-printed form.
5. The suppliers' declarations shall bear the original signature of the supplier in manuscript. However, where the invoice and the supplier's declaration are established using electronic data-processing methods, the supplier's declaration need not be signed in manuscript provided the responsible official in the supplying company is identified to the satisfaction of the customs authorities in the State where the suppliers' declarations are established. The said customs authorities may lay down conditions for the implementation of this paragraph.
6. The supplier's declarations shall be submitted to the customs authorities in the exporting country requested to issue the movement certificate EUR 1
7. The supplier making out a declaration must be prepared to submit at any time, at the request of the customs authorities of the country where the declaration is made out, all appropriate documents proving that the information given on this declaration is correct.
8. Suppliers' declarations made and information certificates issued before the date of entry into force of this Protocol in accordance with Article 26 of Protocol 1 to the Cotonou Agreement shall remain valid.

Article 29

Supporting documents

The documents referred to in Articles 17(3) and 21(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in an EAC Partner State, in the Community or in one of the other countries or territories referred to in Articles 3, 4 and 5 and fulfill the other requirements of this Protocol may consist inter alia of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;
- (b) documents proving the originating status of materials used, issued or made out in an EAC Partner State, in the Community or in one of the other countries or territories referred to in Articles 3, 4 and 5 where these documents are used in accordance with national law;
- (c) documents proving the working or processing of materials in an EAC Partner State, in the Community or in one of the other countries or territories referred to in Articles 3, 4 and 5, issued or made out in an EAC Partner State, in the Community or in one of the other countries or territories referred to in Articles 3, 4 and 5 where these documents are used in accordance with national law;
- (d) movement certificates EUR.1 or invoice declarations proving the originating status of materials used, issued or made out in an EAC Partner State, in the Community or in one of the other countries or territories referred to in Articles 3, 4 and 5 and in accordance with this Protocol.

Article 30

Preservation of proof of origin and supporting documents

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three years the documents referred to in Article 17(3).
2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 21(3).
3. The supplier making out a supplier's declaration shall keep for at least three years copies of the declaration and of the invoice, delivery notes or other commercial document to which this declaration is annexed as well as the documents referred to in Article 28(7).
4. The customs authorities of the exporting country issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 17(2).
5. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them.

Article 31

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 32

Amounts expressed in euro

1. For the application of the provisions of Article 21(1)(b) and Article 27(3) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of an EAC Partner State, of the Member States of the Community and of the other countries or territories referred to in Articles 3, 4 and 5 equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.
2. A consignment shall benefit from the provisions of Article 21(1)(b) or Article 27(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.
3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the Commission of the European Communities by 15 October and shall apply from 1 January the following year. The Commission of the European Communities shall notify all countries concerned of the relevant amounts.
4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 per cent. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.
5. The amounts expressed in euro shall be reviewed by the Special Committee on Customs Cooperation at the request of the Community or of the EAC Partner States. When carrying out this review, the Special Committee on Customs Cooperation shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

TITLE V

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 33

Administrative conditions for products to benefit from the Agreement

1. For Products originating within the meaning of this Protocol in the EAC Partner States or in the Community shall benefit, at the time of the customs import declaration, from the preferences resulting from the Agreement only on condition that they were exported on or after the date on which the exporting country complies with the provisions laid down in paragraph 2.
2. The contracting Parties shall undertake to put in place:

- (a) the necessary national and regional arrangements required for the implementation and enforcement of the rules and procedures laid down in this Protocol, including where appropriate the arrangements necessary for the application of Articles 3, 4 and 5;
 - (b) the administrative structures and systems necessary for an appropriate management and control of the origin of products and compliance with the other conditions laid down in this Protocol.
3. It shall make the notifications referred to in Article 34.

Article 34

Notification of customs authorities

1. The EAC Partner States and the Member States of the Community shall provide each other, through the Commission of the European Communities, with the addresses of the customs authorities responsible for issuing and verifying of movement certificates EUR.1 and invoice declarations or supplier's declarations, and with specimen impressions of the stamps used in their customs offices for the issue of these certificates. Movement certificates EUR.1 and invoice declarations or supplier's declarations shall be accepted for the purpose of applying preferential treatment from the date the information is received by the Commission of the European Communities.
2. The EAC Partner States and the Member States of the Community shall inform each other immediately whenever there are any changes to the information referred to in paragraph 1.
3. The authorities referred to in paragraph 1 shall act under the authority of the government of the country concerned. The authorities in charge of control and verification shall be part of the governmental authorities of the country concerned.

Article 35

Mutual assistance

1. In order to ensure the proper application of this Protocol, the Community, the EAC Partner States and the other countries referred to in Article 3, 4 and 5 shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1, the invoice declarations or the supplier's declarations and the correctness of the information given in these documents.
2. The authorities consulted shall furnish the relevant information concerning the conditions under which the product has been made, indicating especially the conditions in which the rules of origin have been respected in the various EAC Partner States, in the Community and the other countries referred to in Articles 3, 4 and 5 concerned.

Article 36

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out based on risk analysis and at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfillment of the other requirements of this Protocol.
2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the request of verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's or manufacturer's accounts or any other check considered appropriate.
4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.
5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in an EAC Partner State, in the Community or in one of the other countries referred to in Articles 3, 4 and 5 and fulfill the other requirements of this Protocol.
6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.
7. Where the verification procedure or any other available information appears to indicate that the provisions of this Protocol are being contravened, the exporting country on its own initiative or at the request of the importing country shall carry out appropriate enquires or arrange for such enquiries to be carried out with due urgency to identify and prevent such contraventions and for this purpose the exporting country concerned may invite the participation of the importing country in these verifications.

Article 37

Verification of suppliers' declarations

1. Verification of suppliers' declarations shall be carried out based on risk analysis and at random or whenever the customs authorities of the country where such declarations have been taken into account to issue a movement certificate EUR.1 or to make out an invoice declaration, have reasonable doubts as to the authenticity of the document or the correctness of the information given in this document.

2. The customs authorities to which a supplier's declaration is submitted may request the customs authorities of the State where the declaration was made to issue an information certificate, a specimen of which appears in Annex VI to this Protocol. Alternatively, the certifying authorities to which a supplier's declaration is submitted may request the exporter to produce an information certificate issued by the customs authorities of the State where the declaration was made.

A copy of the information certificate shall be preserved by the office which has issued it for at least three years.

3. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. The results must indicate clearly whether the information given in the supplier's declaration is correct and make it possible for them to determine whether and to what extent this supplier's declaration could be taken into account for issuing a movement certificate EUR.1 or for making out an invoice declaration.
4. The verification shall be carried out by the customs authorities of the country where the supplier's declaration was made out. For this purpose, they shall have the right to call for any evidence or to carry out any inspection of the supplier's account or any other check which they consider appropriate in order to verify the correctness of any supplier's declaration.
5. Any movement certificate EUR.1 or invoice declaration issued or made out on the basis of an incorrect supplier's declaration shall be considered null and void.

Article 38

Dispute settlement

Where disputes arise in relation to the verification procedures of Articles 36 and 37 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Special Committee on Customs Cooperation.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall take place under the legislation of that country.

Article 39

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 40

Free zones

1. The EAC Partner States and the Community shall take all necessary steps to ensure that products traded under cover of a proof of origin or a supplier's declaration and which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.
2. By means of an exemption to the provisions contained in paragraph 1, when products originating in an EAC Partner State or in the Community are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone complies with the provisions of this Protocol.

Article 41

Derogations

1. Derogations from this Protocol may be adopted by the Special Committee on Customs Cooperation, hereafter in this article referred to as "the Committee", where the development of existing industries or the creation of new industries in the EAC Partner States justifies them.

The EAC Partner State or States concerned shall, either before or when it submits the matter to the Committee, notify the Community of its request for a derogation together with the reasons for the request in accordance with paragraph 2.

The Community shall respond positively to all the EAC Partner States' requests which are duly justified in conformity with this Article and which cannot cause serious injury to an established Community industry.

2. In order to facilitate the examination by the Committee of requests for derogation, the EAC Partner State or States making the request shall, by means of the form given in Annex VII to this Protocol, furnish in support of its request the fullest possible information covering in particular the points listed below:
 - description of the finished product,
 - nature and quantity of materials originating in a third country,
 - nature and quantity of materials originating in the EAC Partner States or the countries or territories referred to in Articles 3 and 4 or the materials which have been processed there,
 - manufacturing processes,
 - value added,
 - number of employees in the enterprise concerned,
 - anticipated volume of exports to the Community,
 - other possible sources of supply for raw materials

- reasons for the duration requested in the light of efforts made to find new sources of supply,
- other observations.

The same rules shall apply to any requests for extension.

The Committee may modify the form.

3. The examination of requests shall in particular take into account:
 - (a) the level of development or the geographical situation of the EAC Partner State or States concerned;
 - (b) cases where the application of the existing rules of origin would significantly affect the ability of an existing industry in an EAC Partner State to continue its exports to the Community, with particular reference to cases where this could lead to cessation of its activities;
 - (c) specific cases where it can be clearly demonstrated that significant investment in an industry could be deterred by the rules of origin and where a derogation favouring the realization of the investment program would enable these rules to be satisfied by stages.
4. In every case an examination shall be made to ascertain whether the rules relating to cumulation of origin do not provide a solution to the problem.
5. In addition, when a request for derogation concerns a least-developed or an island EAC Partner State, its examination shall be carried out with a favourable bias having particular regard to:
 - (a) the economic and social impact of the decision to be taken especially in respect of employment;
 - (b) the need to apply the derogation for a period taking into account the particular situation of the EAC Partner State concerned and its difficulties.
6. In the examination of requests, special account shall be taken, case by case, of the possibility of conferring originating status on products which include in their composition materials originating in neighbouring developing countries, least-developed countries or developing countries with which one or more EAC Partner States have special relations, provided that satisfactory administrative cooperation can be established.
7. Without prejudice to paragraphs 1 to 6, the derogation shall be granted where the value added to the non-originating products used in the EAC Partner State concerned is at least 45% of the value of the finished product, provided that the derogation is not such as to cause serious injury to an economic sector of the Community or of one or more Member States.
8. Without prejudice and in addition to paragraphs 1 to 7, derogations concerning tuna loins shall be granted within an annual quota of 2.000 tonnes.

Applications for such derogations shall be submitted by the EAC Partner States in accordance with the abovementioned quota to the Committee, which shall grant them automatically and put them into force by means of a decision.

9. The Committee shall take steps necessary to ensure that a decision is reached as soon as possible and in any case not later than seventy-five working days after the request is received by the EC Co-chairman of the Committee. If the Community does not inform an EAC Partner State of its position on the request within this period, the request shall be deemed to have been accepted.

10.

- (a) The derogation shall be valid for a period, generally of five years, to be determined by the Committee.
- (b) The derogation decision may provide for renewals without a new decision of the Committee being necessary, provided that the EAC Partner State concerned submit, three months before the end of each period, a proof that they are still unable to meet the conditions of this Protocol which have been derogated from.

If any objection is made to the extension, the Committee shall examine it as soon as possible and decide whether to prolong the derogation. The Committee shall proceed as provided for in paragraph 9. All necessary measures shall be taken to avoid interruptions in the application of the derogation.

- (c) In the periods referred to in subparagraphs (a) and (b), the Committee may review the terms for implementing the derogation should a significant change be found to have taken place in the substantive factors governing the decision to grant the derogation. On conclusion of its review the Committee may decide to amend the terms of its decision as regards the scope of derogation or any other condition previously laid down.

TITLE VI CEUTA AND MELILLA

Article 42

Special conditions

1. The term "Community" used in this Protocol does not cover Ceuta and Melilla. The term "products originating in the Community" does not cover products originating in Ceuta and Melilla.
2. The provisions of this Protocol shall apply *mutatis mutandis* in determining whether products may be deemed as originating in an EAC Partner State when imported into Ceuta and Melilla.
3. Where products wholly obtained in Ceuta, Melilla or in the Community undergo working and processing in an EAC Partner State, they shall be considered as having been wholly obtained in an EAC Partner State.

4. Working or processing carried out in Ceuta, Melilla or in the Community shall be considered as having been carried out in an EAC Partner State, when materials undergo further working or processing in an EAC Partner State.
5. For the purpose of implementing paragraphs 3 and 4, the insufficient operations listed in Article 8 of this Protocol shall not be considered as working or processing.
6. Ceuta and Melilla shall be considered as a single territory.

TITLE VII FINAL PROVISIONS

Article 43

Revision and application of rules of origin

1. In accordance with Articles 12 and 47 of the Agreement, the EPA Council shall examine annually, or whenever the EAC Partner States or the Community so request, the application of the provisions of this Protocol and their economic effects with a view to making any necessary amendments or adaptations.

The EPA Council shall take into account among other elements the effects on the rules of origin of technological developments.

The decisions taken shall be implemented as soon as possible.

2. In accordance with Article 48 of the Agreement, the Special Committee on Customs Cooperation shall, inter alia, take decisions on:
 - (a) cumulation under the conditions laid down in Article 5;
 - (b) derogations from this Protocol, under the conditions laid down in Article 41.

Article 44

Annexes

The Annexes to this Protocol shall form an integral part thereof.

Article 45

Implementation of the Protocol

The Community and the EAC Partner States shall each take the steps necessary to implement this Protocol.

ANNEX I TO PROTOCOL 1
Introductory notes to the list in Annex II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 7 of the Protocol.

Note 2:

1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns a rule is specified in columns 3 or 4. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rules in columns 3 or 4 apply only to the part of that heading as described in column 2.
2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in columns 3 or 4 apply to all products which, under the Harmonized System, are classified in headings of the chapter or in any of the headings grouped together in column 1.
3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in columns 3 or 4.
4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 has to be applied.

Note 3:

1. The provisions of Article 7 of the Protocol concerning products having acquired originating status which are used in the manufacture of other products apply regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the Community or in the EAC Partner States.

Example:

An engine of heading No 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 per cent of the ex-works price, is made from "other alloy steel roughly shaped by forging" of heading No ex 7224.

If this forging has been forged in the Community from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading No ex 7224 in the list. The forging can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or in another factory in the Community. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

2. The rule in the list represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer originating status. Therefore, if a rule provides that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.
3. Without prejudice to Note 3.2 where a rule states that "materials of any heading" may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression "manufacture from materials of any heading, including other materials of heading No ..." means that only materials classified in the same heading as the product of a different description than that of the product as given in column 2 of the list may be used.
4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that any one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of heading Nos 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other or both.

5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.3 below in relation to textiles).

Example:

The rule for prepared foods of heading No 1904 which specifically excludes the use of cereals and their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth – even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn – that is the fibre stage.

6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the highest of the percentages given. Furthermore, the individual percentages must not be exceeded in relation to the particular materials they apply to.

Note 4:

1. The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres that have been carded, combed or otherwise processed but not spun.
2. The term "natural fibres" includes horsehair of heading No 0503, silk of heading Nos 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of heading Nos 5101 to 5105, the cotton fibres of heading Nos 5201 to 5203 and the other vegetable fibres of heading Nos 5301 to 5305.
3. The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
4. The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of heading Nos 5501 to 5507.

Note 5:

1. Where for a given product in the list a reference is made to this note, the conditions set out in column 3 shall not be applied to any basic textile materials, used in the manufacture of this product, which, taken together, represent 10 per cent or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below).
2. However, the tolerance mentioned in Note 5.1 may only be applied to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,

- synthetic man-made filaments,
- artificial man-made filaments,
- current conducting filaments
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of polyphenylene sulphide,
- synthetic man-made staple fibres of polyvinyl chloride,
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester whether or not gimped,
- products of heading No 5605 (metallized yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading No 5605.

Example:

A yarn of heading No 5205 made from cotton fibres of heading No 5203 and synthetic staple fibres of heading No 5506 is a mixed yarn. Therefore, non-originating synthetic staple fibres that do not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 10 per cent of the yarn.

Example:

A woollen fabric of heading No 5112 made from woollen yarn of heading No 5107 and synthetic yarn of staple fibres of heading No 5509 is a mixed fabric. Therefore synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) or woollen yarn that does not satisfy the origin rules (which

require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning) or a combination of the two may be used provided their total weight does not exceed 10 per cent of the weight of the fabric.

Example:

Tufted textile fabric of heading No 5802 made from cotton yarn of heading No 5205 and cotton fabric of heading No 5210 is only a mixed product if the cotton fabric is itself a mixed fabric being made from yarns classified in two separate headings or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No 5205 and synthetic fabric of heading No 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is accordingly a mixed product.

3. In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped" this tolerance is 20 per cent in respect of this yarn.
4. In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two layers of plastic film", this tolerance is 30 per cent in respect of this strip.

Note 6:

1. In the case of those textile products, which are marked in the list by a footnote referring to this Introductory Note, textile trimmings and accessories which do not satisfy the rule set out in the list in column 3 for the made up products concerned may be used provided that their weight does not exceed 10% of the total weight of all the textile materials incorporated.

Textile trimmings and accessories are those classified in Chapters 50 to 63. Linings and interlinings are not be regarded as trimmings or accessories.

2. Any non-textile trimmings and accessories or other materials used which contain textiles do not have to satisfy the conditions set out in column 3 even though they fall outside the scope of Note 3.5.
3. In accordance with Note 3.5, any non-originating non-textile trimmings and accessories or other product, which do not contain any textiles, may, anyway, be used freely where they cannot be made from the materials listed in column 3.

For example,¹ if a rule in the list says that for a particular textile item, such as a blouse, yarn must be used, this does not prevent the use of metal items, such as buttons, because they cannot be made from textile materials.

¹ This example is given for the purpose of explanation only. It is not legally binding.

4. Where a percentage rule applies, the value of trimmings and accessories must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

1. For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:
- (a) vacuum distillation;
 - (b) redistillation by a very thorough fractionation process ²;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralization with alkaline agents; decolorization and purification with naturally active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerization;
 - (h) alkylation;
 - (i) isomerization.
2. For the purposes of heading Nos 2710, 2711 and 2712, the "specific processes" are the following:
- (a) vacuum distillation;
 - (b) redistillation by a very thorough fractionation process (1)
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralization with alkaline agents; decolorization and purification with naturally active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerization;
 - (h) alkylation;

² See additional Explanatory Note 4(b) to Chapter 27 of the Combined Nomenclature.

- (i) isomerization;
 - (j) in respect of heavy oils falling within heading No ex 2710 only, desulphurization with hydrogen resulting in a reduction of at least 85 per cent of the sulphur content of the products processed (ASTM D 1266-59 T method);
 - (k) in respect of products falling within heading No 2710 only, deparaffining by a process other than filtering;
 - (l) in respect of heavy oils falling within heading No ex 2710 only, treatment with hydrogen at a pressure of more than 20 bar and a temperature of more than 250°C with the use of a catalyst, other than to effect desulphurization, when the hydrogen constitutes an active element in a chemical reaction. The further treatment with hydrogen of lubricating oils of heading No ex 2710 (e.g. hydrofinishing or decolorization) in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
 - (m) in respect of fuel oils falling within heading No ex 2710 only, atmospheric distillation, on condition that less than 30 per cent of these products distils, by volume, including losses, at 300°C by the ASTM D 86 method;
 - (n) in respect of heavy oils other than gas oils and fuel oils falling within heading No ex 2710 only, treatment by means of a high-frequency electrical brush-discharge.
3. For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, any combination of these operations or like operations do not confer origin.

ANNEX II TO PROTOCOL 1
List of working or processing required to be carried out
on non-originating materials in order that the product
manufactured can obtain originating status

The products mentioned in the list may not all be covered by this Agreement. It is therefore necessary to consult the other parts of this Agreement.

HS heading No. (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
Chapter 01	Live animals	All the animals of Chapter 1 used must be wholly obtained	
Chapter 02	Meat and edible meat offal	Manufacture in which all the materials of Chapters 1 and 2 used must be wholly obtained	
ex Chapter 03	Fish and crustaceans, molluscs and other aquatic invertebrates; except for:	All the materials of Chapter 3 used must be wholly obtained	
0304	Fish fillets and other fish meat (whether or not minced), fresh, chilled or frozen	Manufacture in which the value of any materials of Chapter 3 used does not exceed 15% of the ex-works price of the product	
0305	Fish, dried, salted or in brine; smoked fish, whether or not cooked before or during the smoking process; flours, meals and pellets of fish, fit for human consumption	Manufacture in which the value of any materials of Chapter 3 used does not exceed 15% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

ex 0306	Crustaceans, whether in shell or not, dried, salted or in brine; crustaceans, in shell, cooked by steaming or by boiling in water, whether or not chilled, frozen, dried, salted or in brine; flours, meals and pellets of crustaceans, fit for human consumption	Manufacture in which the value of any materials of Chapter 3 used does not exceed 15% of the ex-works price of the product	
ex 0307	Molluscs, whether in shell or not, dried, salted or in brine; aquatic invertebrates other than crustaceans and molluscs, dried, salted or in brine; flours, meals and pellets of crustaceans, fit for human consumption	Manufacture in which the value of any materials of Chapter 3 used does not exceed 15% of the ex-works price of the product	
ex Chapter 04	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included; except for:	Manufacture in which all the materials of Chapter 4 used must be wholly obtained	
0403	Buttermilk, curdled milk and cream, yoghurt, kephir and other fermented or acidified milk and cream, whether or not concentrated or containing added sugar or other sweetening matter or flavoured or containing added fruit, nuts or cocoa	Manufacture in which: - all the materials of Chapter 4 used must be wholly obtained; - any fruit juice (except those of pineapple, lime or grapefruit) of heading No 2009 used must already be originating; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

ex Chapter 05	Products of animal origin, not elsewhere specified or included; except for:	Manufacture in which all the materials of Chapter 5 used must be wholly obtained	
ex 0502	Prepared pigs', hogs' or boars' bristles and hair	Cleaning, disinfecting, sorting and straightening of bristles and hair	
Chapter 06	Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage	Manufacture in which: - all the materials of Chapter 6 used must be wholly obtained; - the value of all the materials used does not exceed 50% of the ex-works price of the product	
Chapter 07	Edible vegetables and certain roots and tubers	Manufacture in which all the materials of Chapter 7 used must be wholly obtained;	
Chapter 08	Edible fruit and nuts; peel of citrus fruits or melons	Manufacture in which: - all the fruit and nuts used must be wholly obtained; - the value of any materials of Chapter 17 used does not exceed 30 % of the value of the ex-works price of the product	
ex Chapter 09	Coffee, tea, maté and spices; except for:	Manufacture in which all the materials of Chapter 9 used must be wholly obtained	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status		
(1)	(2)	(3)	or	(4)

0901	Coffee, whether or not roasted or decaffeinated; coffee husks and skins; coffee substitutes containing coffee in any proportion	Manufacture from materials of any heading	
0902	Tea, whether or not flavoured	Manufacture from materials of any heading	
ex 0910	Mixtures of spices	Manufacture from materials of any heading	
Chapter 10	Cereals	Manufacture in which all the materials of Chapter 10 used must be wholly obtained	
ex Chapter 11	Products of the milling industry; malt; starches; inulin; wheat gluten; except for:	Manufacture in which all the cereals, edible vegetables, roots and tubers of heading No 0714 or fruit used must be wholly obtained	
ex 1106	Flour, meal and powder of the dried, shelled leguminous vegetables of heading No 0713	Drying and milling of leguminous vegetables of heading No 0708	
Chapter 12	Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial or medicinal plants; straw and fodder	Manufacture in which all the materials of Chapter 12 used must be wholly obtained	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

1301	Lac; natural gums, resins, gum-resins and oleoresins (for example, balsams)	Manufacture in which the value of any materials of heading No 1301 used may not exceed 50% of the ex-works price of the product	
1302	Vegetable saps and extracts; pectic substances, pectinates and pectates; agar-agar and other mucilages and thickeners, whether or not modified, derived from vegetable products:		
	- Mucilages and thickeners, modified, derived from vegetable products	Manufacture from non-modified mucilages and thickeners	
	- Other	Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product	
Chapter 14	Vegetable plaiting materials; vegetable products not elsewhere specified or included	Manufacture in which all the materials of Chapter 14 used must be wholly obtained	
ex Chapter 15	Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animals or vegetable waxes; except for:	Manufacture in which all the materials used are classified within a heading other than that of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

1501	Pig fat (including lard) and poultry fat, other than that of heading no. 0209 or 1503:		
	- Fats from bones or waste	Manufacture from materials of any heading except those of heading Nos 0203, 0206 or 0207 or bones of heading No 0506	
	- Other	Manufacture from meat or edible offal of swine of heading No 0203 or 0206 or of meat and edible offal of poultry of heading No 0207	
1502	Fats of bovine animals, sheep or goats, other than those of heading No. 1503		
	- Fats from bones or waste	Manufacture from materials of any heading except those of heading Nos 0201, 0202, 0204 or 0206 or bones of heading No 0506	
	- Other	Manufacture in which all the materials of Chapter 2 used must be wholly obtained	
1504	Fats and oils and their fractions, of fish or marine mammals, whether or not refined, but not chemically modified:		

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

	- Solid fractions	Manufacture from materials of any heading including other materials of heading No 1504	
	- Other	Manufacture in which all the materials of Chapters 2 and 3 used must be wholly obtained	
ex 1505	Refined lanolin	Manufacture from crude wool grease of heading No 1505	
1506	Other animals fats and oils and their fractions, whether or not refined, but not chemically modified:		
	- Solid fractions	Manufacture from materials of any heading including other materials of heading No 1506	
	- Other	Manufacture in which all the materials of Chapter 2 used must be wholly obtained	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status		
(1)	(2)	(3)	or	(4)

1507 to 1515	Vegetable oils and their fractions: - Soya, ground nut, palm, copra, palm kernel, babassu, tung and oiticica oil, myrtle wax and Japan wax, fractions of jojoba oil and oils for technical or industrial uses other than the manufacture of foodstuffs for human consumption - Solid fractions, except for that of jojoba oil - Other	Manufacture in which all the materials used are classified within a heading other than that of the product Manufacture from other materials of heading Nos. 1507 to 1515 Manufacture in which all the vegetable materials used must be wholly obtained	
1516	Animal or vegetable fats and oils and their fractions, partly or wholly hydrogenated, inter-esterified, re-esterified or elaidinized, whether or not refined, but not further prepared	Manufacture in which: - all the materials of Chapter 2 used must be wholly obtained; - all the vegetable materials used must be wholly obtained. However, materials of headings 1507, 1508, 1511 and 1513 may be used	

1517	Margarine; edible mixtures or preparations of animal or vegetable fats or oils or of fractions of different fats or oils of this Chapter, other than edible fats or oils or their fractions of heading No 1516	Manufacture in which: - all the materials of Chapters 2 and 4 used must be wholly obtained; - all the vegetable materials used must be wholly obtained. However, materials of headings 1507, 1508, 1511 and 1513 may be used

(1)	(2)	(3)	or (4)

ex Chapter 16	Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates; except for:	Manufacture from animals of Chapter 1	
1604 and 1605	Prepared or preserved fish; caviar and caviar substitutes prepared from fish eggs; Crustaceans, molluscs and other aquatic invertebrates, prepared or preserved	Manufacture in which the value of any materials of Chapter 3 used does not exceed 15% of the ex-works price of the product	
ex Chapter 17	Sugars and sugar confectionery; except for:	Manufacture in which all the materials used are classified within a heading other than that of the product	
ex 1701	Cane or beet sugar and chemically pure sucrose, in solid form, flavoured or coloured	Manufacture in which the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	
1702	Other sugars, including chemically pure lactose, maltose, glucose and fructose, in solid form; sugar syrups not containing added flavouring or colouring matter; artificial honey, whether or not mixed with natural honey; caramel:		
	- Chemically pure maltose and fructose	Manufacture from materials of any heading including other materials of heading No 1702	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

	- Other sugars in solid form, flavoured or coloured	Manufacture in which the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	
	- Other	Manufacture in which all the materials used must already be originating	
ex 1703	Molasses resulting from the extraction or refining of sugar, flavoured or coloured	Manufacture in which the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	
1704	Sugar confectionery (including white chocolate), not containing cocoa	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	
Chapter 18	Cocoa and cocoa preparations	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

1901	Malt extract; food preparations of flour, meal, starch or malt extract, not containing cocoa or containing less than 40% by weight of cocoa calculated on a totally defatted basis, not elsewhere specified or included; food preparations of goods of heading Nos. 0401 to 0404, not containing cocoa or containing less than 5% by weight of cocoa calculated on a totally defatted basis, not elsewhere specified or included:		
	- Malt extract	Manufacture from cereals of Chapter 10	
	- Other	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	
1902	Pasta, whether or not cooked or stuffed (with meat or other substances) or otherwise prepared, such as spaghetti, macaroni, noodles, lasagne, gnocchi, ravioli, cannelloni; couscous, whether or not prepared:		

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

	- Containing 20% or less by weight of meat, meat offal, fish, crustaceans or molluscs	Manufacture in which all the cereals and derivatives (except durum wheat and its derivatives) used must be wholly obtained	
	- Containing more than 20% by weight of meat, meat offal, fish, crustaceans or molluscs	Manufacture in which: - all cereals and derivatives (except durum wheat and its derivatives) used must be wholly obtained; - all the materials of Chapters 2 and 3 used must be wholly obtained	
1903	Tapioca and substitutes therefor prepared from starch, in the form of flakes, grains, pearls, siftings or in similar forms	Manufacture from materials of any heading except potato starch of heading No. 1108	

1904	Prepared foods obtained by the swelling or roasting of cereals or cereal products (for example, corn flakes); cereals (other than maize (corn)) in grain form or in the form of flakes or other worked grains (except flour and meal), pre-cooked, or otherwise prepared, not elsewhere specified or included	Manufacture: - from materials not classified within heading No 1806; - in which all the cereals and flour (except durum wheat and its derivatives and Zea mays) used must be wholly obtained; - in which the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product

(1)	(2)	(3)	or (4)

1905	Bread, pastry, cakes, biscuits and other bakers' wares, whether or not containing cocoa; communion wafers, empty cachets of a kind suitable for pharmaceutical use, sealing wafers, rice paper and similar products	Manufacture from materials of any heading except those of Chapter 11	
ex Chapter 20	Preparations of vegetables, fruit, nuts or other parts of plants; except for:	Manufacture in which all the fruit, nuts or vegetables used must be wholly obtained	
ex 2001	Yams, sweet potatoes and similar edible parts of plants containing 5% or more by weight of starch, prepared or preserved by vinegar or acetic acid	Manufacture in which all the materials used are classified within a heading other than that of the product	
ex 2004 and ex 2005	Potatoes in the form of flour, meal or flakes, prepared or preserved otherwise than by vinegar or acetic acid	Manufacture in which all the materials used are classified within a heading other than that of the product	
2006	Vegetables, fruit, nuts, fruit-peel and other parts of plants, preserved by sugar (drained, glacé or crystallized)	Manufacture in which the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status		
(1)	(2)	(3)	or	(4)

2007	Jams, fruit jellies, marmalades, fruit or nut purée and fruit or nut pastes, being cooked preparations, whether or not containing added sugar or other sweetening matter	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	
ex 2008	- Nuts, not containing added sugar or spirit	Manufacture in which the value of the originating nuts and oil seeds of heading Nos 0801, 0802 and 1202 to 1207 used exceeds 60% of the ex-works price of the product	
	- Peanut butter; mixtures based on cereals; palm hearts; maize (corn)	Manufacture in which all the materials used are classified within a heading other than that of the product	
	- Other except for fruit and nuts cooked otherwise than by steaming or boiling in water, not containing added sugar, frozen	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status		
(1)	(2)	(3)	or	(4)

2009	Fruit juices (including grape must) and vegetable juices, unfermented and not containing added spirit, whether or not containing added sugar or other sweetening matter	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	
------	---	---	--

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

ex Chapter 21	Miscellaneous edible preparations; except for:	Manufacture in which all the materials used are classified within a heading other than that of the product	
2101	Extracts, essences and concentrates, of coffee, tea or maté and preparations with a basis of these products or with a basis of coffee, tea or maté; roasted chicory and other roasted coffee substitutes, and extracts, essences and concentrates thereof	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - all the chicory used must be wholly obtained	
2103	Sauces and preparations therefor; mixed condiments and mixed seasonings; mustard flour and meal and prepared mustard:		
	- Sauces and preparations therefor; mixed condiments and mixed seasonings	Manufacture in which all the materials used are classified within a heading other than that of the product. However, mustard flour or meal or prepared mustard may be used	
	- Mustard flour and meal and prepared mustard	Manufacture from materials of any heading	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

ex 2104	Soups and broths and preparations therefor	Manufacture from materials of any heading except prepared or preserved vegetables of heading Nos 2002 to 2005	
2106	Food preparations not elsewhere specified or included	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product	
ex Chapter 22	Beverages, spirits and vinegar; except for:	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - all the grapes or any material derived from grapes used must be wholly obtained	
2202	Waters, including mineral waters and aerated waters, containing added sugar or other sweetening matter or flavoured, and other non-alcoholic beverages, not including fruit or vegetable juices of heading No 2009	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of any materials of Chapter 17 used does not exceed 30% of the ex-works price of the product; - any fruit juice used (except for pineapple, lime and grapefruit juices) must already be originating	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

2207	Undenatured ethyl alcohol of an alcoholic strength by volume of 80% vol or higher; ethyl alcohol and other spirits, denatured, of any strength.	Manufacture: - using materials not classified in headings 2207 or 2208, - in which all the grapes or any materials derived from grapes used must be wholly obtained or if all the other materials used are already originating, arrack may be used up to a limit of 5% by volume Manufacture: - from materials not classified within heading Nos 2207 or 2208, - in which all the grapes or any material derived from grapes used must be wholly obtained or if all the other materials used are already originating, arrack may be used up to a limit of 5% by volume	
2208	Undenatured ethyl alcohol of an alcoholic strength by volume of less than 80% vol; spirits, liqueurs and other spirituous beverages		
ex Chapter 23	Residues and waste from the food industries; prepared animal fodder; except for:	Manufacture in which all the materials used are classified within a heading other than that of the product	
ex 2301	Whale meal; flours, meals and pellets of fish or of crustaceans, molluscs or other aquatic invertebrates, unfit for human consumption	Manufacture in which all the materials of Chapters 2 and 3 used must be wholly obtained	

ex 2303	Residues from the manufacture of starch from maize (excluding concentrated steeping liquors), of a protein content, calculated on the dry product, exceeding 40% by weight	Manufacture in which all the maize used must be wholly obtained	
---------	--	---	--

(1)	(2)	(3)	or	(4)

ex 2306	Oil cake and other solid residues resulting from the extraction of olive oil, containing more than 3% of olive oil	Manufacture in which all the olives used must be wholly obtained	
2309	Preparations of a kind used in animal feeding	Manufacture in which: - all the cereals, sugar or molasses, meat or milk used must already be originating; - all the materials of Chapter 3 used must be wholly obtained	
ex Chapter 24	Tobacco and manufactured tobacco substitutes; except for:	Manufacture in which all the materials of Chapter 24 used must be wholly obtained	
2402	Cigars, cheroots, cigarillos and cigarettes, of tobacco or of tobacco substitutes	Manufacture in which at least 70% by weight of the unmanufactured tobacco or tobacco refuse of heading No 2401 used must already be originating	
ex 2403	Smoking tobacco	Manufacture in which at least 70% by weight of the unmanufactured tobacco or tobacco refuse of heading No 2401 used must already be originating	
ex Chapter 25	Salt; sulphur; earths and stone; plastering materials, lime and cement; except for:	Manufacture in which all the materials used are classified within a heading other than that of the product

- The following of this heading:

Prepared binders for foundry moulds or cores based on natural resinous products

Naphthenic acids, their water insoluble salts and their esters

Sorbitol other than that of heading No 2905

Petroleum sulphonates, excluding petroleum sulphonates of alkali metals, of ammonium or of ethanolamines; thiophenated sulphonic acids of oils obtained from bituminous minerals, and their salts

Ion exchangers

Getters for vacuum tubes

Manufacture in which all the materials used are classified within a heading other than that of the product. However, materials classified within the same heading may be used provided their value does not exceed 20% of the ex-works price of the product

Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product

Alkaline iron oxide for
the purification of gas

Ammoniacal gas liquors
and spent oxide produced
in coal gas purification

Sulphonaphthenic acids,
their water insoluble salts
and their esters

Fusel oil and Dippel's oil

Mixtures of salts having
different anions

Copying pastes with a
basis of gelatin, whether
or not on a paper or
textile backing

8409	Parts suitable for use solely or principally with the engines of heading No 8407 or 8408	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8411	Turbo-jets, turbo propellers and other gas turbines	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8412	Other engines and motors	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

ex 8413	Rotary positive displacement pumps	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
ex 8414	Industrial fans, blowers and the like	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8415	Air conditioning machines, comprising a motor-driven fan and elements for changing the temperature and humidity, including those machines in which the humidity cannot be separately regulated	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

8418	Refrigerators, freezers and other refrigerating or freezing equipment, electric or other; heat pumps other than air conditioning machines of heading No 8415	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product; - the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
ex 8419	Machines for wood, paper pulp and paperboard industries	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within the same heading as the product are only used up to a value of 25% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8420	Calendering or other rolling machines, other than for metals or glass, and cylinders therefor	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within the same heading as the product are only used up to a value of 25% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

8423	Weighing machinery (excluding balances of a sensitivity of 5 cg or better), including weight operated counting or checking machines; weighing machine weights of all kinds	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8425 to 8428	Lifting, handling, loading or unloading machinery	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8431 are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8429	Self-propelled bulldozers, angledozers, graders, levellers, scrapers, mechanical shovels, excavators, shovel loaders, tamping machines and road rollers:		
	- Road rollers	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

	- Other	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8431 are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8430	Other moving, grading, levelling, scraping, excavating, tamping, compacting, extracting or boring machinery, for earth, minerals or ores; pile-drivers and pile-extractors; snow-ploughs and snow-blowers	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the value of the materials classified within heading No 8431 are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
ex 8431	Parts suitable for use solely or principally with road rollers	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

8439	Machinery for making pulp of fibrous cellulosic material or for making or finishing paper or paperboard	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within the same heading as the product are only used up to a value of 25% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8441	Other machinery for making up paper pulp, paper or paperboard, including cutting machines of all kinds	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within the same heading as the product are only used up to a value of 25% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8444 to 8447	Machines of these headings for use in the textile industry	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
ex 8448	Auxiliary machinery for use with machines of headings Nos 8444 and 8445	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

8452	Sewing machines, other than book-sewing machines of heading No 8440; furniture, bases and covers specially designed for sewing machines; sewing machine needles:		
------	--	--	--

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

	- Sewing machines (lock stitch only) with heads of a weight not exceeding 16 kg without motor or 17 kg with motor	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used in assembling the head (without motor) does not exceed the value of the originating materials used; - the thread tension, crochet and zigzag mechanisms used are already originating	
	- Other	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8456 to 8466	Machine-tools and machines and their parts and accessories of headings Nos 8456 to 8466	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8469 to 8472	Office machines (for example, typewriters, calculating machines, automatic data processing machines, duplicating machines, stapling machines)	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status		
(1)	(2)	(3)	or	(4)

8480	Moulding boxes for metal foundry; mould bases; moulding patterns; moulds for metal (other than ingot moulds), metal carbides, glass, mineral materials, rubber or plastics	Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product	
8482	Ball or roller bearings	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8484	Gaskets and similar joints of metal sheeting combined with other material or of two or more layers of metal; sets or assortments of gaskets and similar joints, dissimilar in composition, put up in pouches, envelopes or similar packings; mechanical seals	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8485	Machinery parts, not containing electrical connectors, insulators, coils, contacts or other electrical features, not specified or included elsewhere in this Chapter	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

ex Chapter 85	Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles; except for:	Manufacture in which - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8501	Electric motors and generators (excluding generating sets)	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8503 are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8502	Electric generating sets and rotary converters	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8501 or 8503, taken together, are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
ex 8504	Power supply units for automatic data-processing machines	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

ex 8518	Microphones and stands therefor; loudspeakers, whether or not mounted in their enclosures; audio-frequency electric amplifiers; electric sound amplifier sets	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8519	Turntables (record-decks), record-players, cassette- players and other sound reproducing apparatus, not incorporating a sound recording device	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8520	Magnetic tape recorders and other sound recording apparatus, whether or not incorporating a sound reproducing device	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

8521	Video recording or reproducing apparatus, whether or not incorporating a video tuner	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8522	Parts and accessories suitable for use solely or principally with the apparatus of heading Nos 8519 to 8521	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8523	Prepared unrecorded media for sound recording or similar recording of other phenomena, other than products of Chapter 37	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8524	Records, tapes and other recorded media for sound or other similarly recorded phenomena, including matrices and masters for the production of records, but excluding products of Chapter 37:		
	- Matrices and masters for the production of records	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

	- Other	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8523 are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8525	Transmission apparatus for radio-telephony, radio-telegraphy, radio-broadcasting or television, whether or not incorporating reception apparatus or sound recording or reproducing apparatus; television cameras; still image video cameras and other video camera recorders	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8526	Radar apparatus, radio navigational aid apparatus and radio remote control apparatus	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

8527	Reception apparatus for radio-telephony, radio-telegraphy or radio broadcasting, whether or not combined, in the same housing, with sound recording or reproducing apparatus or a clock	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8528	Reception apparatus for television, whether or not incorporating radio broadcast receivers or sound or video recording or reproducing apparatus; video monitors and video projectors	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8529	Parts suitable for use solely or principally with the apparatus of heading Nos 8525 to 8528:		
	- Suitable for use solely or principally with video recording or reproducing apparatus	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS heading No. (1)	Description of product (2)	Working or processing carried out on non-originating materials that confers originating status (3) or (4)	
-----------------------	-------------------------------	--	--

	- Other	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8535 and 8536	Electrical apparatus for switching or protecting electrical circuits, or for making connections to or in electrical circuits	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8538 are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8537	Boards, panels, consoles, desks, cabinets and other bases, equipped with two or more apparatus of heading No 8535 or 8536, for electric control or the distribution of electricity, including those incorporating instruments or apparatus of Chapter 90, and numerical control apparatus, other than switching apparatus of heading No 8517	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8538 are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

ex 8541	Diodes, transistors and similar semi-conductor devices, except wafers not yet cut into chips	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8542	Electronic integrated circuits and microassemblies	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where, within the above limit, the materials classified within heading No 8541 or 8542, taken together, are only used up to a value of 10% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
8544	Insulated (including enamelled or anodised) wire, cable (including coaxial cable) and other insulated electric conductors, whether or not fitted with connectors; optical fibre cables, made up of individually sheathed fibres, whether or not assembled with electric conductors or fitted with connectors	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

8545	Carbon electrodes, carbon brushes, lamp carbons, battery carbons and other articles of graphite or other carbon, with or without metal, of a kind used for electrical purposes	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8546	Electrical insulators of any material	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8547	Insulating fittings for electrical machines, appliances or equipment, being fittings wholly of insulating materials apart from any minor components of metal (for example, threaded sockets) incorporated during moulding solely for purposes of assembly other than insulators of heading No 8546; electrical conduit tubing and joints therefor, of base metal lined with insulating material	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8548	Waste and scrap of primary cells, primary batteries and electric accumulators; spent primary cells, spent primary batteries and spent electric accumulators; electrical parts of machinery or apparatus, not specified or included elsewhere in this Chapter	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

ex Chapter 86	Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signaling equipment of all kinds; except for:	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8608	Railway or tramway track fixtures and fittings; mechanical (including electro-mechanical) signalling, safety or traffic control equipment for railways, tramways, roads, inland waterways, parking facilities, port installations or airfields; parts of the foregoing	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
ex Chapter 87	Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof; except for:	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
8709	Works trucks, self-propelled, not fitted with lifting or handling equipment, of the type used in factories, warehouses, dock areas or airports for short distance transport of goods; tractors of the type used on railway station platforms; parts of the foregoing vehicles	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

8710	Tanks and other armoured fighting vehicles, motorized, whether or not fitted with weapons, and parts of such vehicles	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8711	Motorcycles (including mopeds) and cycles fitted with an auxiliary motor, with or without side-cars; side-cars:		
	- With reciprocating internal combustion piston engine of a cylinder capacity:		
	-- Not exceeding 50 cc	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 20% of the ex-works price of the product

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

	-- Exceeding 50 cc	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 25% of the ex-works price of the product
	- Other	Manufacture: - in which the value of all the materials used does not exceed 40% of the ex-works price of the product; - where the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
ex 8712	Bicycles without ball bearings	Manufacture from materials not classified in heading No 8714	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
8715	Baby carriages and parts thereof	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

8716	Trailers and semi-trailers; other vehicles, not mechanically propelled; parts thereof	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
ex Chapter 88	Aircraft, spacecraft, and parts thereof; except for:	Manufacture in which all the materials used are classified within a heading other than that of the product	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product
ex 8804	Rotochutes	Manufacture from materials of any heading including other materials of heading No 8804	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product
8805	Aircraft launching gear; deck-arrestor or similar gear; ground flying trainers; parts of the foregoing articles	Manufacture in which all the materials used are classified within a heading other than that of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
Chapter 89	Ships, boats and floating structures	Manufacture in which all the materials used are classified within a heading other than that of the product. However, hulls of heading No 8906 may not be used	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

ex Chapter 90	Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; parts and accessories thereof; except for:	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
9001	Optical fibres and optical fibre bundles; optical fibre cables other than those of heading No 8544; sheets and plates of polarizing material; lenses (including contact lenses), prisms, mirrors and other optical elements, of any material, unmounted, other than such elements of glass not optically worked	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
9002	Lenses, prisms, mirrors and other optical elements, of any material, mounted, being parts of or fittings for instruments or apparatus, other than such elements of glass not optically worked	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	
9004	Spectacles, goggles and the like, corrective, protective or other	Manufacture in which the value of all the materials used does not exceed 40% of the ex-works price of the product	

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status	
(1)	(2)	(3)	or (4)

ex 9005	Binoculars, monoculars, other optical telescopes, and mountings therefor, except for astronomical refracting telescopes and mountings therefor	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product; - the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product
ex 9006	Photographic (other than cinematographic) cameras; photographic flashlight apparatus and flashbulbs other than electrically ignited flashbulbs	Manufacture in which: - all the materials used are classified within a heading other than that of the product; - the value of all the materials used does not exceed 40% of the ex-works price of the product; - the value of all the non-originating materials used does not exceed the value of the originating materials used	Manufacture in which the value of all the materials used does not exceed 30% of the ex-works price of the product

HS heading No.	Description of product	Working or processing carried out on non-originating materials that confers originating status

ANNEX II(a) TO PROTOCOL 1
Derogations from the list of working or processing
required to be carried out on non-originating materials
in order that the product manufactured can obtain originating status,
accordingly to Article 7(2)

The products mentioned in the list may not all be covered by the Agreement. It is therefore necessary to consult the other parts of the Agreement

Common provisions

1. For the products described in the table below, the following rules may also apply instead of the rules set out in Annex II.
2. A proof of origin issued or made out pursuant to this Annex shall contain the following statement in English:

"Derogation – Annex II(a) of Protocol ... - Materials of HS heading No ... originating from ... used."

These statements shall be contained in box 7 of movement certificates EUR.1 referred to in Article 17 of the Protocol, or shall be added to the invoice declaration referred to in Article 21 of the Protocol.

3. The EAC Partner States and the Member States of the Community shall take the measures necessary on their part to implement this Annex.
