REPORT FROM THE STATES OF THE EUROPEAN FREE TRADE ASSOCIATION PARTICIPATING IN THE EUROPEAN ECONOMIC AREA

1. Application by the EFTA States participating in the EEA

1.1 Iceland

European works

The seven covered channels broadcast an average of 39.6% European works in 2007 and 42.2% in 2008. This represents a 2.6 percentage point increase over the reference period. For 2007 and 2008, of the total of seven covered channels, three channels achieved the majority proportion specified in Article 4 of the Directive (Omega Television, RUV and Syn - Vision TV), while four channels didn't meet this target (Sirkus, Skjár 1, Stöð 2 and Stöð 2 Bio). The compliance rate, in terms of numbers of channels, was 42.9%.

European works made by independent producers

The average proportion of European works by independent producers on all reported channels was 10.7% in 2007 and 12.6% in 2008, representing a 1.9 percentage points increase over the reference period.

In 2007, of the total of seven identified channels, two channels exceeded the minimum proportion under Article 5 of the Directive, while three channels remained below the target. One channel was exempted (Syn - Vision TV) and no data was communicated for another one (Omega Television). The compliance rate, in terms of number of channels, was 33.3%.

For 2008, of the total of seven covered channels, three exceeded the minimum proportion specified in Article 5 of the Directive, while two channels were below the target (Skjár 1 and Stöð 2 Bio). No data were communicated for two channels. The compliance rate, in terms of number of channels, was 42.9%.

The average relative proportion of the recent European works by independent producers for all reported channels was 83.8% in 2007 and 86.7% in 2008, resulting in a 2.9 percentage point increase over the reference period.

The evolution of the averages achieved over the period 2005-2008 for European works, independent productions and recent works is reproduced in the chart below:

1.2. Norway

Of the total of 14 identified channels, four channels were exempt during the reference period. One channel was non-operational in 2007.

European works

All channels reported broadcast an average of 57.8% and 60.3% in 2007 and 2008 respectively, representing a 2.5 percentage point increase over the reference period.

In 2007, out of nine reported channels, seven channels achieved the majority proportion of transmission time specified in Article 4 of the Directive, while two channels did not (TV2 Filmkanalen and Voom HD). The compliance rate, in terms of number of channels, was 77.8%.

For 2008, out of nine reported channels, six channels achieved the majority proportion of transmission time specified in Article 4 of the Directive, while three channels did not (NRK3, TV Norge and TV2 Filmkanalen). The compliance rate, in terms of number of channels, was 60%.

European works made by independent producers

The average proportion of European works by independent producers on all reported channels was 25.2% in 2007 and 43.3% in 2008, representing an 18.1 percentage point increase over the reference period.

In 2007, of the total of nine covered channels, seven channels exceeded the minimum proportion under Article 5 of the Directive, while two channels remained below the target (TV2 Filmkanalen and Voom HD). The compliance rate, in terms of number of channels, was 77.8%.

For 2008, all the nine covered channels exceeded the minimum proportion specified in Article 5 of the Directive. The compliance rate, in terms of number of channels, was 90%.

The average relative proportion of the recent European works by independent producers for all reported channels was 64.6% in 2007 and 66.1% in 2008, resulting in a 1.5 percentage point increase over the reference period.

The evolution of the averages achieved over the period 2005-2008 for European works, independent productions and recent works is reproduced in the chart below:

PART 2 – Comments

Monitoring method

No comment.

A) Reasons given by the Member State for failure to reach

1. Majority proportion of European works (Article 4)

TV 2 Filmkanalen did not fulfill its obligation in 2007 and 2008. The channel has, however, shown considerable progress by more than tripling the European quotas in this period (from 6 to 22 percent).

The other two channels that did not fulfill the European quotas obligations for 2008 (TVNorge and NRK3) have not stated reasons. However, the deviations are quite small (1 and 2 percent respectively), and both channels have shown good results for the previous years.

2. A minimum proportion of European works by independent producers (Article 5)

TV 2 Filmkanalen has fulfilled the independent production quotas in 2008, increasing the proportion from 3 percent in 2007 to 13 percent in 2008.

B) Measures taken or envisaged by the Member State

The Norwegian authorities will continue to monitor that TV 2 Filmkanalen, TVNorge and NRK3 increase the European works quota for the next period, and take further action if they do not.

C) Further comments

No comment.
